

# Get Year and Day for Threat to Kill Wilson.

Adolph Swimer, who was arrested in April at Woodbine, N. J., charged with having threatened to kill President Wilson and who was convicted in May last, was today sentenced to one year and one day in the Federal penitentiary at Atlanta by Judge J. Warren Davis at Newark. Swimer was working on a farm when arrested. He appears to be well educated and polished and during his trial impressed every one by his mental capacity.

## TAKE VICE EVIL FROM POLICE HANDS MAYOR IS URGED

### Woman Attorney Declares Present System Is Ineffective and Demoralizing.

The following letter was addressed to Mayor Mitchell to-day by Anna Moscovitz, an attorney of No. 63 William Street:

"The police are again being discredited and the question of vice and white slavery are prominently before the public. In view of the above, I consider it opportune to submit to you a number of facts and conclusions deduced from several years' experience in work closely connected with the police and the vice question and from investigations made by people conversant with the subject.

"Every now and then a new line of attack is hurled against the police, which is extremely unfortunate, for it has a tendency not only to discredit the force, which is of vital importance to the community, but also to divert the attention of the public from the real issue.

"The Police Department at large has done unusually good work. All criticisms and attacks have centered upon the branch of the department devoted to vice work or closely associated with it. No matter how often or how many investigations may be conducted, the evil will remain so long as the vice question is handled by the police.

"I am reliably informed that there are many hotels and other places, presumably shut, which are houses of assignation, that the police have knowledge of.

"Prostitution has not been checked, but the sporadic efforts of the police have simply compelled the underworld to resort to more secretive measures, and created more need for graft, and indirectly resulted in such crimes as the Cruger case.

"You will admit, I believe, that the underworld lives only by virtue of the fine network of graft into which many members of the police force have frequently been enmeshed. The activity of the plainclothes branch of the police department is badly in need of reconstruction, if not abolition.

"Many a woman on the streets to-day pays tribute to them for protection. In my humble opinion, the only way of ever reaching any scientific solution of the problem would be to take vice in every one of its branches, out of the domain of the police. The amount of the taxpayers' money expended in conducting this branch of the police department and the whole attendant system of courts and prisons, could be utilized to far better advantage.

"The establishment of a welfare commission, with full powers to act would, in my opinion, lead toward a solution. This suggestion on my part is

not a novel one, as the same idea was incorporated in a bill passed by the Assembly in 1913, but which was vetoed by Mayor Gaynor, because of defects in the construction of the bill. New York, as the leading city in our country, should be an example of the scientific and just handling of the problems that so closely affect the welfare of each individual of the community.

## ROYAL FLYER KILLED IN FALL

En Route to Toronto, Wing of Plane Hits a Tree.

CAMP BORDEN, Ont., June 27.—Daniel Callaghan, a Royal Flying Corps captain who had won distinction in France, was killed in an aeroplane accident at Camp Borden last night. It was announced here to-day.

With a cadet named Francis, Callaghan decided to fly to Toronto instead of going by rail. One wing of their machine struck a tree and the plane crashed to the ground, pinning Callaghan under it. Francis sustained a fracture of one leg.

## Wool Brings 72 Cents.

PORTLAND, Ore., June 28.—Sixty-five thousand pounds of wool were sold here to-day to Boston interests at 72 cents a pound, said to be the highest price ever paid for wool in the State. The price has averaged 49 cents.

## \$1,000,000,000 WASTED BY AMERICAN FARMERS

Barnyard Refuse, Available for Fertilizer, Is Being Thrown Away.

WASHINGTON, June 28.—More than a billion dollars' worth of barnyard refuse is wasted in the United States annually, according to Carl Vrooman, Assistant Secretary of Agriculture.

"The experts of our department have figured that at least half of the animal refuse, all of which is available for fertilizer, is lost to agriculture every year. Here is a job for the American farmer. It is not simply a colossal waste measure. It is a measure which, if put into practice, will permanently benefit American agriculture."

Butte Mines to Operate With Part of Their Forces.

BUTTE, Mont., June 28.—Mines in the Butte district will continue operations with their partial forces, mine owners to-day announced after hearing that the Engineers' Union had not voted to strike.
